- 1985 to Date - Crew Chief for Pat Austin (highlights listed above)

Mike Austin, Team Manager

Mike Austin has been an assistant to Walt Austin for 16 years. He has been a very instrumental part of Pat's driving success. This comes from being able to read the car as it goes down the track and then interpret what he saw and relate the information to Walt and Pat, facilitating the next tuning decision. Mike also drove Walt's Alcohol Dragster and won a National Event each year of the two years he raced. One being the quickest Alcohol Dragster field to date at Dallas Texas in 1998. Mike is the President of International Racing Components (I.R.C. Pushrods) which manufactures high performance pushrods. Mike's pushrods are used by the majority of the Alcohol, Pro-Stock, and Fuel cars you see running down the track. Check out I.R.C. Pushrods at www.ircpushrods.com or call for pushrod info at **1-253-847-8221**

Austin's Pro-Max was established by the Austin family in 1997. The Pro-Max story is quite unique. We bought a 45,000 square foot building that used to be a Chevrolet Dealership in Tacoma Washington and started three separate automotive businesses and an Indian Motorcycle dealership, said Pat.

First, we sell restored, custom and classic cars through our Pro-Max Muscle Car and Street Rod Dealership. We also have a full service performance parts store that sells the latest performance parts for mild to wild improvements to your stock vehicle. The third business Austin's Pro-Max has at its facility is a radiator, muffler and brake service and installation center that also includes a chassis dyno bay. If you are looking for a muscle car, street rod, Indian Motorcycle or just the parts that go on them, give them a call at 1-800-877-9472.
